

# Kādant AES REPAIR CENTER

## Dedicated, expert service

Technical service is one of the greatest strengths of Kadant AES. It is part of our commitment to you, our customer. Supplying superior products isn't enough. Fast, efficient repair service is essential to smooth-running, profitable papermaking operations.

The Kadant AES Repair Center is a facility dedicated solely to answering your equipment repair needs—quickly, conveniently and thoroughly.

## Technicians directly at your service

The Kadant AES Repair Center's self-directed team of technicians have years of experience. Their expertise is immediately available at your call. Often the extent of any damage is unknown until repair work is started. When requested, consultation and estimates can be quickly provided before any repairs are performed. The Kadant AES Repair Center stands ready to help ensure the full operational success of your papermaking equipment.

## Fast turn-around

Reducing downtime is critically important to any paper mill. Expect fast response at the Kadant AES Repair Center. For example, only 48 hour turn-around on standard oscillator repair. Your repairs will always be complete and correct with no short cuts taken and using only the highest quality authentic Kadant AES parts. The Kadant AES Repair Center is staffed and stocked to meet your repair needs now.

- *Oscillators • Control Panels • Nozzles*
